This Morning's News.

The telegraph announces that the Syracuse *Courier*, the central organ of the New York Democracy, has hauled down the Douglas and Johnson flag, and hoisted that of Breckinridge and Lane. Another nail in Douglas' coffin.

The Douglasites have finally concluded to run an electoral ticket in Virginia.

The U. S. Agricultural Exhibition is to be held at Cincinnati, in September next.

Washington Market, New York, was damaged by fire on Wednesday evening, to the amount of $22,000.

The removal of Marshal Rynders, of New York, is contradicted.

The Birth-day of Freedom in the North-West.

To-day, the 13th of July, is the anniversary of the famous ordinance of 1787, which forever prohibited Slavery in the North-west territory. This ordinance received the sanction of the first Congress under the Constitution and of the first President of the Republic, George Washington. It embodied the leading principle of the Republican party—*opposition to the extension of Slavery*—and received the almost unanimous support of the Fathers and founders of our government.

The day is to be worthily celebrated by a Grand Republican Mass Meeting at Beloit, Rock county; where, it is thought, some ten or twenty thousand of the yeomanry of Northern Illinois and Southern Wisconsin will meet together to re-affirm the principles of the great ordinance of Freedom and respond to the nominations of Lincoln and Hamlin.

The News on the Republican Meeting.

The *News* of yesterday does its best to cry down and carricature the Republican Mass Meeting in this city, on Wednesday afternoon and evening. According to that veracious journal, the attendance was slim, the enthusiasm forced, the speaking indifferent, Lincoln passed over in silence—in short, a very unsatisfactory affair all around, as no doubt it was to the sham Democracy. The *News* concludes its fancy sketch in this wise:

> We are prompted by no political feeling in characterizing this meeting as a failure, when compared with the expectations of our citizens, and more particularly those who originated it. Truth compels us to say, and our opponents must from the same cause acknowledge, that they have been sadly disappointed. That they anticipated more cannot be denied—that but little was the result, was palpably evident.

The sacrifice which the *News* is "compelled" to make to "truth," in pronouncing the meeting "a failure," is fearful to think of. We have a pretty extensive acquaintance with "those who originated" the meeting; and so far from being "sadly disappointed," we have yet to meet with the first Republican in our city who was not delighted with the great gathering. In spirit, numbers, enthusiasm and an earnest purpose to win the day, it far surpassed the most sanguine expectations of our friends, as it caused dismay and consternation among our opponents. Milwaukee has never seen a larger, or more spirited political assemblage than the Republican Mass Meeting of Wednesday last.

Stocks Rising.—The accounts from all parts of the country indicate prosperity in the highest degree. With an increasing crop, greater by far than that of any previous year in the history of our country—all our great staples at highly remunerative prices and a season of unexampled healthiness—it is not to be wondered that our community should feel the impetus, and that speculation should become rife. The New York *Evening Post*, of Monday evening, says "extraordinary buoyancy on the Stock Exchange is the order of the day. The speculative list is very active and prices are again higher. The volume of business is fast assuming proportions which, in point of animation and elasticity, promise to exceed all the movements of the past three years, not excepting the large advance attending the recoil from the panic of 1857."

A Steel-Plated War Steamer.—A paper published at Cherbourg, France, announces the speedy completion of the steel-plated frigate *Normandie*. The plating is said to be so thick that a cannon ball could not penetrate it unless it should strike the same spot thirteen times. A spear projects from her prow, which is designed, when impelled by steam, to cut an opposing ship in two. This addition is regarded as a remarkable progress in the construction of such steamers.

Politics at Washington.

Special Despatch to the World.

Washington, July 9.

There is an immense meeting here to-night of the friends and adherents of the Breckinridge and Lane party. The crowd which is collected is quite unequalled in the history of the city.

The office-holders are out in great force. There are at least eight hundred clerks and four hundred employees present, shouting with all their lungs for the candidate of the administration and the seceders.

The Mayor of Washington City presides.

The resolutions passed declare the democratic Douglas convention to have been of a revolutionary character.

They merely condemn the republicans in their usual mild language, reserving all their epithets for the benefit of their old associates.

Meek, of Alabama, and Brown of Mississippi, made extreme, violent speeches. Mr. Meek said that the Douglas delegation voted down the bogus delegation from Georgia, among whom was Johnson, the very man, who, after the resignation of Fitzpatrick, was chosen by them as their candidate for Vice-President.

This palpable hit was received with tremendous enthusiasm. He also denounced the Douglas democracy as a pest-house of corruption, with other vituperative adjectives too numerous to mention.

In the afternoon the bands hired by the Breckinridge men serenaded Buchanan, who made a speech fully endorsing the Breckinridge democracy.

There was a great crowd at the White House, and political excitement runs higher than we had supposed possible in the absence of Congress.

Why had a man better lose his arm than a leg? Because, losing his leg, he loses something "to boot."

When your hair gets into disorder, what heathen deity should you name? Comus.

Meeting of Bankers at Janesville.

At a meeting of the country bankers of State, held pursuant to call, at Janesville, on the 10th inst., the following banks being represented:

Koshkonong Bank,	Bank of Waupun,
Summit Bank,	Bank of Wisconsin,
Rock River Bank,	Bank of Madison,
Grant County Bank,	Central Bank of Wisconsin,
Jefferson Co. Bank,	Exc'ge Bank, Darling & Co.
Dane Co. Bank,	City Bank of Beaver Dam,
Rock Co. Bank,	Bank of the Northwest,
Waukesha Co Bank,	Bank of Columbus
Oneida Bank, Berlin,	Beloit Savings Bank,
Bank of Jefferson,	Wisconsin Valley Bank,
Bank of Portage,	Forest City Bank,
Bank of Beloit,	Waupacca Co. Bank,
Bank of Watertown,	Sauk Co. Bank,
Bank of Fox Lake	Columbia Co. Bank.

John P. McGregor was called to the Chair, and Timothy Brown appointed Secretary, and the following preamble and resolutions were unanimously adopted:

Whereas, The Banker's Association of Wisconsin did, on the 7th of September last, adopt the following preamble and resolution, viz:

"*Whereas*, The Banks of the State of Illinois furnish a currency which they do not redeem, and which, by the laws of that State, cannot, without much delay and expense, be converted into coin; and, whereas the banks of this State furnish a currency which they do redeem, and which, by the laws of this State, they are compelled to redeem, in coin, on demand; and, whereas, the Banks of the State of Illinois have been, and are rapidly increasing their circulation, while those of this State have, during the past year, been steadily reducing theirs; therefore,

Resolved, That until the laws of Illinois are so amended as to compel the Banks of that State to redeem in coin, on demand, or until said Banks establish some central point for the redemption of their currency in New York Exchange, or coin, at a reasonable rate, the Banks of this State will not receive Illinois currency, except at a discount, and will not pay it out, directly or indirectly, within this State—which discount shall be one per cent., until the 20th inst., and after that date, at a discount of three per cent.; subject to any change that the Directors of the Association may recommend.

And whereas, by their recent action, the Milwaukee Banks have undertaken to receive and pay out Illinois currency at par with Wisconsin currency, thus departing from the letter and spirit of the above resolution, without conference with the country Banks;

Resolved, That in the opinion of this Convention, this action of the Milwaukee Banks was entirely uncalled for, impolitic and unjust to the country Banks of this State, and calculated to work injury to the business interests of our people, by introducing a poorer currency in the place of a better, by continuing the late high and oppressive rates of exchange, and by tending to compel the withdrawal of our own State circulation to make way for an unconvertible foreign currency, and at the same time further reduce the Banking capital, and thus impair the revenues of the State.

Resolved, That the country banks will not lend their aid or influence to the circulation of the currency of the Banks of Illinois, or any other State, which is not convertible into coin or eastern exchange, at reasonable rates, and that we shall adhere to the resolution adopted by the Association at Milwaukee, on the 7th of September last, and that we will continue to refuse to receive and pay out as currency within this State, all such bank notes, until they shall by law or some arrangement on the part of the owners or agents, be made convertible on equal terms with the circulation of this State.

Resolved, That the papers of the State be requested to publish the foregoing preamble and resolutions.

Owen Lovejoy at Gerrit Smith's.

Correspondence of the N. Y. Tribune.

Peterboro', N. Y., July 4, 1860.

The Hon. Owen Lovejoy, of Illinois, addressed a very large gathering of the people of Madison county, at Hamilton. Messrs. Lansing and Scholefield also made eloquent addresses. After the meeting closed, Mr. Lovejoy, by previous arrangement, took a carriage and came to visit Mr. Smith. Although the notice of his coming was short, yet at 8 o'clock in the evening an audience of several hundred ladies and gentlemen had assembled in front of Mr. Smith's mansion to listen to a short address from the distinguished stranger.

Gerrit Smith welcomed Mr. Lovejoy in a speech of unusual eloquence. He spoke of the esteem in which he had long held Mr. L.; of his faithful service in the cause of human freedom, and alluded in a most touching manner to the fate of his noble brother, who was murdered by a pro-slavery mob at Alton in 1837.

Mr. Smith then introduced Mr. Lovejoy to the people, who received him with acclamation. Though quite weary, Mr. L. made a powerful speech of about an hour upon the principles of the Republican party. He handled the Democracy and Douglas without ceremony, and was warmly cheered by the audience throughout his speech. At the close of his remarks a vote of thanks was passed to the speaker. Afterward a large number of the ladies and gentlemen of the place took the opportunity to pay their respects to Mr. L., and spent an hour in conversation under the hospitable roof of his host.

I am not a Republican, but I was pleased to look upon the man who a short time since shook his fists in the face of the insolent slaveocracy in the Hall of Representatives; and while they cursed, and threatened and gnashed their teeth upon him, charged home upon them their unbounded villainy, and without faltering portrayed their outrage of all the laws of God and man in the practice of slaveholding, told them of their meanness and wickedness, and charged them with the murder of his own brother more than twenty years since.

If we could have also looked upon the brave Potter, of Wisconsin, who so thoroughly humbled the chivalry in the case of the poor braggart, Pryor, we should have had pleasure enough for one evening.

Gerrit Smith is in more perfect health than for many years past. I have never seen him so vigorous both in mind and body.

The Great Eastern.—Yesterday was the opening day at fifty cents, and as it was anticipated that a very large crowd would visit the ship, everything was in order to receive them. At the hour of opening there were but a few people on the dock, most of whom went on board. As the day advanced the numbers increased, until the closing hour, when nearly four thousand people had paid their half dollar. One of the quarter-masters, named Edward Farrell, died very suddenly yesterday. The coroner was immediately notified, and at noon an inquest was held, and a verdict brought in that the deceased died of exhaution, caused by drinking excessively. The body was placed in a neat coffin, and was taken to New York Bay Cemetery, where already one of the crew has been buried.

The number of visitors up to Saturday last was as follows:

July 4	1,783

July 6	2,149
July 7	2,500

THE CORN TRADE IN GREAT BRITAIN.

The Crop Prospects in England, France and Russia—Stocks in England—Probable Future Supply—Prices, &c.

From the London Mark Lane Express, June 25.

When we recently touched on the state of the corn trade, and referred to the various influences that had tended to effect an advance in prices, we added that such a cause would probably continue to operate until a supply of new corn relieved the market. Since our reasoning has been intensified by a continuance of unpropitious weather, that has not only retarded the growth of vegetation, but to a considerable extent materially lessened the prospect of a productive corn crop. A protracted winter, a cold and stormy spring, and thus far, at least, a wet and ungenial summer, have together retarded the progress of vegetation, so that the earing time of the wheat crop, which under ordinary circumstances takes place in the first week in June, will not, in most districts, be general before the beginning of July. When we reflect that this will throw forward maturation and ingathering of the crop to a period when the days are sensibly decreasing in length and the sun in power, we may estimate that the harvest has not only been rendered a full month later than the average of years, but that, in consequence of the shortening of the days, it must necessarily be a protracted, if not a precarious one. This is the first, the most general, and inevitable effect of the unpropitious season we are now passing through.

If we next look to the consequences on the wheat crop, we feel equally convinced of the injurious effect of the weather. The accounts, it is true, are conflicting, and it is at present certainly too soon to pronounce a decisive opinion on the ultimate result. The opinions, however, of the best informed men, derived from analogy and observation, are unanimous as to the probability that the yield of wheat must be light, after so unpropitious a season; and the majority of the reports we receive from the different districts from time to time strengthen such a conclusion. Some even go so far as to state that, from present appearances, there cannot be more than two-thirds of a crop; and in the low lands which have been partially flooded, or, being undrained, are saturated with lingering surface water, the prospect is still more unfavorable. Very few are the cases in which a full average is looked for, and these refer not to the strong clay soils—wheat lands par excellence—but to the drier, sandy, and gravelly, or mixed soils, on which the continual rains have had less injurious effect, but that also yield a less abundant cereal produce. We cannot, therefore, shut our eyes to the probable consequences of the atmospheric phenomena of the season upon the growing crop, which will probably be more or less deficient, depending upon the state of the weather during the next three months.

With regard to the stock of native wheat on hand, to meet the consumption of a season now extended to thirteen months before we can get a supply of new wheat, we find it is the general opinion that we have not much more in stock than we had at the commencement of harvest last year. In some parts of the country the dealers report, "our farmers have done thrashing for this season." In other words they have sold out, with the exception of a quantity required to supply straw for thatching the stacks at harvest a reservation which is a very common practice. The large and wealthy farmers still hold considerable quantities; but, in general, the low price of wheat at the earlier part of the season compelled the great body of tenants to thrash an extra quantity in order to make up money to pay rent and other expenses, as well as to purchase live stock.

A considerable quantity of wheat was also consumed by cattle, being too much injured by the rain harvest to be available with the miller. Independently of this, there was an absolute deficiency both in the yield per acre and in the weight per bushel in the crops of last year. Putting, therefore, these circumstances together, we can clearly account for the shortness of the supply in the country markets, and also for the gradual advance that has taken place within the last three months.

Nor has the supply of foreign wheat been such this year as to afford much relief. The importations up to the present time have fallen below those of last year upwards of 1,000,000 qrs, the whole importation for the five months up to the 31st May being not more than 1,000,000 qrs.; and as the sales have been fully equal to the receipts, the stock has not increased. We are assured that the stock on hand in London does not exceed 100,000 qrs., which is less than half that of any year at the same period since the harvest of 1854.

We may expect further supplies from the Baltic and Black Sea, but these will be high rates. With reference to the latter, a report has just been received from St. Petersburg that Southern Russia has been visited by an army of locusts, and that in the provinces adjoining Odessa, a hundred square miles of country have been devastated by them.—If this report proves true, it is impossible to say how far the mischief may still extend, but it will infallibly cause an advance in prices at Odessa, as well as lessen the exports thence another year.

The accounts from France, like those of the United Kingdom, are conflicting. In the eastern and southern departments, and in Brittany the wheat has sustained little injury from the weather, excepting so far as retarding its growth. But in the central and northern departments the effects have been severely felt. Fine weather, however, would now, as with us, materially improve the crops, by favoring the blooming, and filling the ear.

Prices had nevertheless risen in France, partly in consequence of the weather, but mainly, we believe, through the operation of the sliding-scale, which, at present, prohibits the importation. On the other hand, the advance has raised the rates too high for exportation to this country. The price of wheat in Paris last week ranged from 58s. to 61s. per quarter, and of flour from 43s to 45s per 280 lbs.; and on such terms it could not be exported to any port in England at a profit, or even at a loss. It is not, therefore, likely, that we shall obtain any great quantity of wheat or flour thence, unless the prices here should rise, or those in France fall, so as to allow the exporter a profit.

The Americans will probably send us a little, now that our markets afford them a profit; but they cannot supply much before their new crop is gathered in. Their exportations of wheat and flour in the month of May were only equal to 96,409 qrs. The quotations from New York, as given last Monday, range from 22s 6d to 31s 3d per brl—equal to from 45s to 62s 4d per quarter for wheat which will scarcely allow the exporter a profit, the highest range for wheat in our market being 64s for fine overyear quality.

Such are the present conditions under which the wheat trade remains, and from which we find quite enough to justify the advance that has taken place; nor do we see anything in the future that is likely to cause a revulsion. The addition of a month to the consumption of the seasonal year by the postponement of the harvest to that extent, will of itself be sufficient to prevent the recurrence of lower prices, pressing, as this state of things does, upon the acknowledged deficient crop of last harvest, and an unusually short supply of foreign wheat. We are, in fact, less prepared for any emergency than we were after the disastrous harvest of 1853, because at that period there was a large stock of old English wheat on hand—probably equal to at least four months' consumption—and a good stock of foreign corn in granary; neither of which can possibly be the case at the commencement of the next season, whatever may be the result of the harvest.

The reports of the growing crops of spring corn are even less favorable than those of wheat. In Suffolk they speak despairingly of the barley as irretrievably bad; and this, with some exceptions in favor of the light soils, appears to be the general feeling. The seed was well got in, but the cold rains caused it to come up irregularly; much of the plant perished in its incipient vegetation, and the prospect of a good return is blighted for the season. Oats are in much the same state; and notwithstanding the very large importation in the earlier part of the season, and their renewal during the last few weeks, the prices are well sustained. An importation of 56,284 quarters, and 82,000 quarters the last fortnight, made no material improvement on the market, the demand for the country being quite enough to keep up the previous rates.

With the exception of 1853, we have not had so unfavorable a season for vegetation for the last forty years, and we can scarcely at this early stage calculate the full effect.—Viewing it in the most favorable light, enough is already developed to excite the most serious apprehensions, and we cannot but earnestly wish that the next three months will prove more genial than the past. Still, we fear that even this would not repair the injury the various crops have sustained from the continual rains, although it would certainly prevent some further aggravation, and even partially improve some lands which now appear to have suffered severely.

Proclamation.

To the Electors of the City of Milwaukee:

A special election will be held on the 15th day of July inst., for the purpose of electing a City Treasurer, in pursuance of section 52 of the amendments to the City Charter, approved March 27, 1855.

The polls will be opened at the following places from nine o'clock in the forenoon until five o'clock in the afternoon:

First Ward—At the house of Francis Casper, on Market street.

Second Ward—At the house of Louis Auer, on Fourth street.

Third Ward—At the Louisiana House, on Main street.

Fourth Ward—At the house of Engine Co. No. 5, on Second street.

Fifth Ward—At the Niagara House.

Sixth Ward—At the house of Peter Altpeter, corner of Third and Sherman streets.

Seventh Ward—At the house of F. Heineman, on Market street.

Eighth Ward—At the house of Sweebert Hett, on Cook street.

Ninth Ward—At the house of M. Baker, on Twelfth street, between Galena and Walnut streets.

Said election to be conducted and the returns made as provided in sections 6 and 9, of chapter 2 of the City Charter, approved February 20th, A. D. 1852.

Milwaukee, July 10, 1860. WM. P. LYNDE, Mayor.

The People's candidate for Treasurer, at the election above noticed, is John H Tesch. He was fairly chosen in April and should receive the support of all lovers of *fair play*, without distinction of party.

Sabbath School Concert and Festival.—On Tuesday evening next, a concert, in aid of the Library of the Summerfield M. E. Sunday School, will be given by the Sunday School children of that Church. The exercises will commence at the church at 8 o'clock, and continue one hour, when an ice cream festival will be held in the lecture room below, where Emery's best cream, with other refreshments, will be served up. We understand the object is to supply the wants of the school in many particulars.—The tickets are placed at ten cents, and can be had at Van Cott's, Matson & Loomis', at the book stores, and from the children of the School, who will call on you during the week. Parents could not do a nicer thing than to take their whole family. The little ones would be delighted with the performances.

The Newhall House.—Change of Proprietors.—Mr. Kean, who has been associated with Mr. Rice in the management of the Newhall House, ever since the opening of that capital Hotel, has disposed of his interest in that establishment and will be succeeded by Mr. Chas. Andrews, late of St. Louis. Mr. Kean has made many warm friends during his residence in this city, who part with him with regret. He returns to his home at Louisville, Kentucky, where he continues to keep the Louisville Hotel.

The new firm of Rice and Andrews will no doubt successfully maintain the reputation of the Newhall House, as the best Hotel in the Western country.

Work for the "Wide Awakes."—The incidents of the meeting on Market Square, Wednesday evening, demonstrated the importance and the advantage of the "Wide Awake" organization. Not only do they greatly enhance the scenic effect of such a gathering, but they serve as a most efficient police force to preserve order, prevent disturbance and suppress rowdyism. Our Milwaukee "Wide-Awake" Club is greatly increasing in numbers. It ought to be at least *five hundred* strong. Let our patriotic Young Men make haste to join it.

Ninth Ward Republicans.—It was the delegations from the Ninth and Sixth Wards (not the Eighth as our reporter had it) that marched down, headed by a band of music, to Market Square, Wednesday evening.—They turned out some three hundred strong, and being joined by the "Wide-Awakes," with their torches, made a fine display. The Republicans of the Second, Sixth and Ninth Wards are hard at work and will give a good account of themselves this Fall. Let the other Wards emulate their good example.

Anniversary of the Light Guard.—Our Milwaukee Light Guard celebrate their fifth anniversary on Monday next by an excursion to Oconomowoc; leaving here at 8 A. M. and returning in the evening. The occasion will be a pleasant one and if the weather is fine, no doubt the Guard will turn out with full ranks.

Milwaukee—Her Harbor, Commerce, Railroads and Indebtedness.

Correspondence of the New York World.

The harbor of Milwaukee—eighty-five miles north of Chicago—is entered through a semi-circular bay, six miles from point to point and about two miles across. Into this bay the Milwaukee river—after receiving the Menomonee, about 220 rods from the bay—empties, forming one of the best harbors on the lake.

"THE STRAIGHT CUT."

The original channel of the river was very crooked, and discharged its waters much to the south of the present entrance, which is called the "straight cut," and was made from the bay directly west into the river at its nearest point to the shore line. This extensive work was commenced in 1854 and completed in 1857, at a cost to the federal government of $15,000 and to the city of $190,000. The cut is 260 feet in the clear in width, 14 feet deep and 1,088 feet long. The piers protecting the entrance are built of framed cribs filled with stone, and the direction given by them is N. 81 deg. E., magnetic, thus presenting equal facilities for vessels from both directions, and diminishing the probability of the formation of a bar by the action of a reflected current around the north pier, from the fact that as observations have shown, the strongest prevailing current is from N 46 deg. E., striking the pier at an angle of incidence of about 35 deg. A direction is hence given to it along the pier towards the shore, and it expends itself in counteracting the force of the current to the north. The river has been dredged, and is in good condition. The old channel has been suffered to fill up, and is not used.

CONDITION OF MILWAUKEE—CITY BONDS.

The commerce of the city is increasing, and when the present financial depression is removed from the west, this town will prosper with the rest. There is no disguising the fact, however, that at present the credit of the City of Milwaukee stands low. This unfortunate fact is owing to several causes which, it is but justice to her citizens to state, have hitherto been beyond their control. The largest part of the indebtedness of the city was incurred in prosperous times in aid of railroad enterprises, the promotion of which was of vital importance to the commercial advancement of the town. The roads were constructed, and that too, in great part, by means of funds raised by negotiating the bonds loaned by the city to the different railway corporations; but all western roads have, some through mismanagement, and some through lack of business, failed to realize the anticipations of their projectors, or to earn the interest on cost of construction. The roads centering in Milwaukee not meeting the interest on the city bonds issued to them, the tax payers of the town have been called upon to pay these obligations, which they never expected to be required to assume, at a time when private embarrassments are already heavy upon them, when trade is dull, when they cannot borrow money from eastern capitalists, and when their real estate, which, in the inflated period preceding the collapse of 1857, bore a fabulous but fictitious price, possesses no speculative or available value to meet present needs.

The extent and amount of the obligations thus superimposed upon the city by defaulting railroads, may be ascertained at a glance, from the following official statement of the amount of bonds issued to the several railroad companies by the city of Milwaukee, and of the unpaid coupons thereon:

	Bonds.	Unpaid Coupons Nov. 9, '59.
Milwaukee & Mississippi R. R. Co.	$84,000	
do do do	150,000	
do do do	300,000	
Total	$534,000	$35,070
Milwaukee & Watertown R. R. Co.	200,000	20,284
La Crosse & Mil. R. R. Co	200,000	
Mil. Fond du Lac & G. B. R. R.	114,000	
Total	314,000	14,653
Mil. & Horicon R. R. Co	100,000	18,273
Mil. & Beloit R. R. Co	100,000	26,533
Mil. & Superior R. R.	100,000	10,533
Green Bay, Mil. & Chicago R. R.	250,000	
Total, Nov. 9, 1859	$1,614,000	$129,016

Since the date of the above official statement no coupons have been paid, and the Mil. & Chicago Railroad Company has since been added to the list of defaulting companies, failing to pay the semi-annual interest due March 1, 1860, and July 1, 1860, and now owing $7,000 of unpaid coupons past due. The security given by this company, however, being a second mortgage, with only $400,000 of prior encumbrance, is considered ample to indemnify the city.

To promptly provide for so large and unexpected an indebtedness, is a task which requires no little financial prudence and judgment, so as to satisfy bondholders, and at the same time add as slightly as possible to the burdens of the tax-paying classes.

LEGISLATIVE ENACTMENTS.

"All the bonds issued to the several railroad companies, to aid in the construction of three respective roads, except the $234,000 first issued to the Milwaukee and Mississippi railroad company, are issued pursuant to the authority conferred by the act authorizing the city of Milwaukee to loan its credit in aid of certain railroads, approved April 2, 1853, and are subject to the provisions of that act. It is provided in section 5, of the act to which we have referred, that 'in case of the default or neglect of any such railroad company (to which bonds should be issued pursuant to that act) to pay the whole or any part of the principal or interest moneys of the bonds issued to such company, the said Common Council shall have the power to collect or foreclose the bond and mortgage executed by such company to said city, and also to collect, sell, or dispose of all and every security received from such company, and apply the proceeds thereof in payment of the interest or principal of such bonds.'"—*Laws of Wisconsin of* 1853, *chap.* 244, *sec.* 5, *p.* 582.

Another act passed by the last Legislature of the State enables the city to procure receivers to be appointed and otherwise facilitates coercion of the railways and enforcement of the securities held. An attempt has been made by the city government to negotiate with bondholders, with a view to transferring the securities to them and a release of the city, a scheme which at one time seemed to be favorably entertained by Mr. Draper, and others in New York, but which is now quite unlikely to be carried into effect. The bonds are widely distributed, and such a plan is in some respects impracticable.

THE PRESENT INDEBTEDNESS OF THE CITY

is two million six hundred thousand dollars. Although this sum is large, nothing is more certain than that the creditors of the city will ultimately be fully paid. The question of repudiation is scouted by every citizen. The city is the commercial centre of a section of country of immense agricultural resources. Time, good crops, and a careful economy, a population of fifty-five thousand people, all anxious to pay their debts and restore municipal credit, will redeem Milwaukee from the prostration which nearly all new cities suffer, and place her again above reproach.—The present Mayor, Hon. Wm. Pitt Lynde, formerly a Member of Congress from this District, a lawyer of eminent ability, and a gentleman of wealth, culture, and the most spotless character, will undoubtedly do all in his power to meet the exigencies of the occasion and extricate the city from discredit.

FOREIGN IMMIGRATION.

One of the most cheering indications, both for Milwaukee and the State of Wisconsin, is the large and continual immigration of Germans and Norwegians. They daily arrive in considerable companies, clad in the custom of fatherland, and bringing with them industrious, frugal habits, as well as a good deal of ready money. They constitute a useful and increasing element of the population of the North-west.

At the last meeting of the Wisconsin Natural History Association, the subject of the yellow powdery matter recently seen floating, in such quantities, on the waters of Lake Michigan, came under consideration; and the President (Mr. Lapham) stated that it was the pollen of the pine and other coniferous trees that grow so abundantly about the northern shores of the Lake, and not sulphur rained down from the clouds, nor seeds of aquatic plants, as supposed by some.

A Great Day for the Wheat.—The cloudless sky, bright sunshine and cool northerly breeze, yesterday, were just the thing for the fast-ripening wheat. Many of our farmers are already at work in their fields, cutting the grain. More will follow next week. A few days of such splendid weather as we had yesterday will make everything safe.

Newhall House, Milwaukee, July 11, 1860.

A CARD.

In retiring from the Newhall House, I would take the opportunity to return my thanks to the citizens of Milwaukee, for the many acts of kindness and courtesy which I have received at their hands. I leave them with reluctance, feeling that I have many warm freinds here whom I appreciate, and I shall ever look back with pleasure to the many pleasant days I have spent with them. But my engagements at Louisville, Ky. compel me to dispose of my interests in this city, and although I shall hereafter make it my permanent residence in Louisville, yet I shall expect to revisit here occasionally to see my friends, and I will always be happy to welcome them at the Louisville Hotel—my home in Kentucky.

Particularly would I express my gratitude and kind feelings towards Daniel Newhall, Esq., the owner of the Newhall House, with whom I have had dealings the past four years, ever since the foundation of the hotel was laid. I can truly say that I have found him a liberal and honorable gentleman in every sense of the word, more so than any other person with whom I have ever transacted business. I feel as though I cannot say too much in his praise, and sincerely trust that he may ever meet with the success which he so eminently deserves.

My successor, Chas. Andrews, Esq., of St. Louis, I cheerfully recommend to the public, as one capable of fully maintaining the reputation of the house, and who together with his estimable lady, will make the Newhall their future home, and with my late partner, Mr. Rice, will, if possible, add to the present excellent reputation of the hotel. M. KEAN.

It is not too Much to Say

SINCE ALL,

OLD AND YOUNG,

Affirm its Truth,

VIZ: THAT PROF. WOOD'S HAIR RESTORATIVE will preserve *infallibly* the *growth* and *color* of the hair, if used two or three times a week, to any imaginable age. Perfectly restore the gray, cover the bald with nature's own ornament, the hair; make it more soft and beautiful than any oil, and preserve the scalp free from all disease to the greatest age. Statesmen, Judges, Attorneys, Doctors, Clergymen, Professional men, and Gentlemen and Ladies of all classes, all over the world, bear testimony that we do not say too much in its favor. Read the following, and judge:

Hickory Grove, St. Charles Co., Mo., November 19, 1857.

Prof. O. J. Wood—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted to report it. Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Hair Restorative; we did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are Yours respectfully,

GEORGE W. HIGGINBOTHAM,
SARAH A. HIGGINBOTHAM.

Prof. Wood—Dear Sir: My hair had, for several years, been becoming prematurely gray, accompanied by a harshness which rendered the constant application of oil necessary in dressing it. When I commenced using your Hair Restorative about two months ago it was in that condition; and having continued its use till within the last three weeks, it has been turned to its natural color, and resumed a soft ness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have ever used. I regard it as an indispensable article for every lady's toilet, whether to be used as a Hair Restorative or for the simple purpose of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it.

MRS. C. SYMONDS.

Cincinnati, Ohio, Feb. 10, 1857. 114 Third st.

Wellington, Mo., Dec. 5, 1857.

Prof. Wood—Dear Sir: By the advice of a friend of mine, who had been using your Restorative, I was induced to try it. I had the fever, some time last May, and nearly every hair in my head came out. Now my hair has come in a great deal thicker than ever it was. Nothing but a duty and sympathy that I feel to communicate to others who are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative.

Yours respectfully,
A. R. JACOBS.

The Restorative is put up in bottles of three sizes, viz: Large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Nomination of John F. Potter.

The unanimous nomination of Mr. POTTER for re-election to Congress and the unmistakable enthusiasm with which his name was received by the vast crowd in Albany Hall, disturb the nerves of our neighbor, the *News*. It is equally dissatisfied with the nomination and with the manner in which it was made. This is to be regretted. Republicans, of course, would prefer to see our Democratic brethren submit, with good grace, to the inevitable result of the approaching election, and desire to make defeat as pleasant as possible for them. They grieve to see that the *News* is in no such happy frame of mind. On the contrary, it manifests a degree of spite towards Mr. POTTER quite unworthy of a metropolitan journal and ill-calculated to advance its own cause, or please its friends. Thus in yesterday's issue the *News* says:

It has been customary heretofore, to call conventions *to nominate a candidate*, but this one was called *to nominate Potter*, and as the object was expressly stated in the call, it would have been clearly out of order for the convention to have considered the claims of any other aspirant for the honor of representing this district in Congress. If Potter had invented the Republican party and procured a patent, he would have been entitled to the exclusive use of it for a term of years; but we cannot understand how he has acquired the right to monopolize the honor and emoluments of the highest office in the gift of the people of this Congressional district.

There was no occasion to consider the claims of any other aspirant, for Mr. POTTER was the only man thought of by the people, or named in the Convention. He pretends, however, to no right of monopoly in this office, and indeed did not desire the nomination; but yielded to the universal wish of his constituents in the matter. Mr. POTTER, during the three years that he has been in Congress, has done his duty faithfully and has won his way to a distinguished position in the House. His cool and resolute bearing, on two memorable occasions, earned for him the respect of every man who admires *pluck* and despises bullyism. The people of the First Congressional District will take care that he returns to Washington with an emphatic endorsement of his public course and personal character.

The Effect of It.

The *News* copies an article from the St. Paul *Pioneer and Democrat*, embodying the vote cast by each of the Southern States for BUCHANAN and FILLMORE in the election of 1856, and drawing therefrom the following comforting conclusion:

"It will be seen by these figures that only a slight division of the Democratic vote is required to give most of the Southern States to the opposition. Hence if the Seceders persist in running their candidate, and succeed in dividing the party vote, then the inevitable result will be that *almost the entire South will be carried by the American nominees*. This is "the only result that can be accomplished by the Southern Seceders. The idea that Breckinridge will receive a single electoral vote of a single Southern State, save perhaps South Carolina, where there is no popular vote, seems to us the height of absurdity."

Such is the aspect of the political horizon, as seen from the DOUGLAS stand point. On the other had, the BRECKINRIDGE men claim that if the DOUGLAS wing "persist in running their candidate," the inevitable result will be that the entire North will be carried by the Republican nominees. There is force in both arguments. But while BRECKINRIDGE will very possibly carry a few of the Southern States, we do not see, in the present position of the Campaign, what Northern State Mr. DOUGLAS can secure.

THE REPUBLICAN papers represent Mr. Douglas as occupying a position similar to that occupied by Mr. Van Buren in 1848. In doing this they deprive their own candidate, Lincoln, of an honor which belongs exclusively to him. Mr. Van Buren ran on the same platform that Lincoln runs on, was nominated by a sectional convention and received no votes in the slaveholding States.—*News of yesterday.*

The editor of the *News* helped to nominate and run Mr. VAN BUREN in 1848 "on the same platform that LINCOLN runs on." He is now trying a similar experiment—excepting the platform—with DOUGLAS, and will doubtless meet with pretty much the same success that attended his efforts in 1848.

GLOOMY PROSPECT.—The Chicago *Herald*, a Douglas paper, speaks thus despondingly, yet truly, of the political prospect:

"The division every day becomes more marked. The prospect of harmonious action, to any extent, becomes more and more dim. A fatal malice seems to have eaten into our very hearts. A Cimmerean darkness thickens along the line of our political vision. We rush upon our fate."

THE GRAND TRUNK AND THE GREAT EASTERN.—The Grand Trunk Company are about commencing an action against the Great Eastern Steamship Company for breach of contract. On the faith of it the railway company made a large outlay for harbor accommodation at Portland, and the City Council expended no less than $60,000, beside an immense amount of private capital which was spent in making the necessary preparations.

LUMBER TRADE OF OCONTO COUNTY.—The Oconto *Pioneer*, of the 7th inst., gives some interesting statistics of the lumber trade in that county. The principal points are Manomonee, Oconto, Peshtigo, Pensaukee and Little Suamico. The aggregate capacity of the different mills is estimated by the *Pioneer at six hundred thousand feet in twelve hours*, which is thought to exceed any other county in the State.

PROFANE SWEARING.—The revised penal code passed by the Legislature of Pennsylvania last winter makes all persons who speak loosely or profanely of God, Christ, the Holy Spirit, or the Bible, liable to an indictment for blasphemy, the penalty of which is a fine not exceeding one hundred dollars, or imprisonment not exceeding three months, or both, at the discretion of the court.

ANOTHER.—The St. Anthony *Express*, the Democratic organ of Hennepin county, Minnesota, has formally declared for BRECKINRIDGE and LANE, as "the only regular and National Democratic candidates for the Presidency."

IT IS A VERY COMMON opinion that the Douglasites have a hard road to travel, and all must agree that the other wing will have a hard *Lane* to run.

The Reciprocity Treaty.

For the Sentinel.

I see in your issue of the 11th, the minority report of a Committee of the Chamber of Commerce maintaining that it would be promotive of the interests and consistent with the honor of this country, to abrogate the Reciprocity Treaty between the U. S. and the British North American Possessions.—As I believe that it would be injurious to our trade, and dishonorable for us to do so, I ask a portion of your space to discuss this important question. I would state that the statistics which I give are taken from the published reports of the Secretary of the Treasury, and, as in many instances they do not agree with those given by Mr. COLVER in his report, any one may satisfy himself as to their being correct by going to the library of the Young Men's Association, where he will find for reference the Government Reports. The burden of Mr. COLVER's report is, that the Treaty instead of giving an impetus to our trade with Canada, has ruined it. Let the published figures decide. Before the Treaty took effect, the exports from the U. S. to, and the imports into this country from Canada and the other North American British Possessions were:

	Exports from U. S.			Imports into
	Foreign.	Domestic	Total.	U. S.
1852...	$3,5?3,919	$6,055,097	$10,509,016	$6,110,299
1853...	5,736,355	7,404,057	13,140,642	7,550,718

I will now give you the exports and imports for the last four years. I believe Mr. COLVER, (although he does not give the figures for each year,) has in his reckoning included the year ending June 30, 1855, although he says himself that the Treaty did not take effect till the spring of 1855, and he has omitted 1859 for what reason I know not; its figures would, however, materially change his statistics. In the following table I do not give 1855, because part of its trade was not done under the Treaty:

EXPORTS FROM UNITED STATES.

	Foreign.	Domestic.	Total.	Imports. Total.
1856..	$6,314,652	$22,714,097	$29,029,349	$21,310,421
1857..	4,326,369	19,936,113	24,262,482	22,124,296
1858..	4,012,768	19,638,959	23,651,727	15,806,519
1859..	6,384,517	21,769,627	28,154,178	19,727,551
	$21,638,336	$54,050,806	$105,097,782	$78,963,787

Will any intelligent, unprejudiced business man comparing these two tables, say that the treaty has ruined our trade with Canada? Within two years after the treaty came in force, we sent to Canada *three times* as much as we did two years before the operation of the treaty. It is true, indeed, that in 1857 and 1858 our trade with Canada diminished, as indeed it did with every country on account of the financial crash, but it will be observed that in 1859 it began to recover. And, again, it is worthy of notice that previous to the treaty, the foreign goods we exported were equal to *two-thirds* of our domestic, while since the treaty our domestic exports are *four times* as large as our foreign. And, further, these statistics show that during the last four years we sent to the British Provinces $24,000,000 worth of commodities *more than they sent to us*; that does not look much like "the northern gale blasting and injuring our interests," which Mr. COLVER speaks of, but rather seems to be a good stiff southern breeze to the tune of $24,000,000!!

Another fearful consequence attributed by Mr. COLVER to the treaty is the ruin of the shipping, the Canadians doing the larger portion of the carrying trade. Let the figures of the Secretary of the Treasury again speak:

	American Tonnage. Entered.	Cleared.	Foreign Tonnage. Entered.	Cleared.
1856..	$1,379,470	1,449,851	$1,620,154	$1,654,569
1857..	1,575,793	1,459,559	1,488,095	1,566,595
1858..	1,315,741	1,606,936	1,318,846	1,457,087
1859..	2,166,704	2,053,848	1,368,499	1,600,212
	$6,440,714	$6,581,750	$5,795,594	$6,338,363

Which shows that during the last four years the tonnage of American vessels entered and cleared from the ports of this country in the trade with the British Provinces, exceeds by over *one million* the tonnage of foreign vessels so engaged. Where then the foundation for this cry that the Canadians are driving us from the field? Mr. COLVER has surely more faith in American enterprise than believe that we have been forced to yield to Canadian competition on these lakes!

Another complaint is made that we, during four years since the treaty went into effect, have sold them only about $4,500,000 of flour and $7,000,000 of wheat. The amount of wheat is correctly stated, but where in the wide world Mr. Colver got his figures for the flour I cannot imagine. Let our own official reports again speak.

	Wheat Exported.	Flour Exported.
1856	$1,639,990	$4,402,580
1857	2,089,017	3,500,048
1858	2,214,385	4,200,058
1859	1,279,277	4,028,717
	$7,223,669	$16,090,280

Showing that instead of our sending $4,500,000 to the British Provinces, we have sent $17,000,000 worth of flour, and of flour and wheat added over $24,000,000. During 1859 we sent about twice as much wheat and flour to the British Provinces as we did to England.

Another reason for the abrogation of the treaty brought forward by Mr. Colver is, that the "Canadians take our wheat and manufacture it into flour and then return the flour *illegally* to us as Canadian flour." Now, why blame the treaty for what is done *contrary* to the treaty? If smuggling is carried on, our officers and not the treaty, are to be blamed. In order to show how badly we have been cheated in this treaty, Mr. Colver says that "by it we admit Canadians to traverse all our inland lakes and ports including Lake Michigan, for the empty *bubble* of a free pass through the St. Lawrence." Now, what is meant by *all our inland lakes*? The fact is, Lake Michigan is the only Lake which we have a right to keep them out of, and the other Lakes belong as much to the Canadians as to us.—We gave them the right to navigate Lake Michigan and they allow us to use their canals and the St. Lawrence River. The latter Mr. Colver thinks is a mere *bubble* because it is frozen in winter and of no use, but for the same reason Michigan must be a *bubble*, too, for there is precious little trade carried on, on it, during winters.

The greatest fault that the Anti-Reciprocity men find with the treaty is that the Canadians charge duty upon a large proportion of the goods which we send them, while the most of the commodities they bring us come within the provisions of the treaty and are therefore duty free. Now I am curious to know what difference it makes to us whether the goods bought by the Canadians go in duty free or under a tariff, so long as they are bought from us, for the duty is added to the price of the goods, and comes out of the pockets of the Canadians. Their tariff is not for the purpose of protecting their own manufactures, for they have none, but for the purpose of raising a revenue to pay the interest on their debt, and as they treat the British and all other nations alike, our chances of furnishing their markets are as good with, as without a tariff on the goods we send them. Figures alone can detect the many subtle causes which influence trade, and the fact that last year we sent them $9,000,000 of goods more than they sent us triumphantly dispels the assertion that our trade with Canada is a losing one. The depression of the lumber business is attributed to the treaty. The real cause, of this is undoubtedly the crisis of 1857; yet it is true that the Canadians do import large quantities of lumber, and I think it is well that lumber should be cheap, and although a few individuals may not make such fortunes, it is nevertheless a benefit to the country at large, for how many hundred buildings have been put up, and how many thousand workmen employed during the past few years, that would not have been so had lumber been at the prices of 1856?

Another effect of the treaty, showing it to be favorable to the interest of this country, is worthy of notice. The towns on the St. Lawrence are becoming less and less points of transhipment, while those in Canada West are becoming more so. The exports of Quebec in two years after the treaty took effect declined one-third and the imports in the same ratio, while at Toronto they have increased, showing that trade which was formerly carried on from Quebec by sea is now carried on either through or with this country.

Would it be honorable to abrogate this treaty, which has yet five years to run?—Mr. COLVER says it would, and accuses the Canadians of breaking it in two ways. *Firstly*, They have increased the duty upon boots, shoes and harness, and some other commodities. Now there is nothing said in the treaty against increasing the duty upon any article, neither is there the remotest allusion to boots, shoes and harness, and it is no more a breach of the treaty to increase the duty on these, than was the Tariff Bill recently passed by our Congress. *Secondly*, They are accused of breaking the treaty, because they discriminate in favor of vessels passing through their canals bound for their own ports. But since they discriminate in favor of *our* vessels, bound for Canadian ports, as well as in favor of their own, they do not in this break the treaty, for the treaty says nothing against favoring their own *ports*; it merely stipulates that they shall not favor their *vessels*, and I am surprised that a man of Mr. COLVER's intelligence should confound the two.

I am sure we in Milwaukee have no reason to find fault with the treaty, for since its operation we have got as good prices for our produce as ever we did before, and many of our most enterprising and extensive purchasers have been gentlemen from Canada. And I think Chicago and Detroit favor the treaty, for I believe their Chambers of Commerce have petitioned against its abrogation. In short, however much its repeal might please and profit a few millers, and the canal and Buffalonian interests of the State of New York, whose desire is to confine our Western produce to their market alone, nothing could be more inconsistent with the honor, and injurious to the interests, of the nation at large, than the repeal of the Reciprocity Treaty between this country and the British North American Provinces. J. J.

Hon John C. Breckinridge's Acceptance of the Nomination for Presidency.

Mr. BRECKINRIDGE's letter to CALEB CUSHING, Chairman of the Seceders' Convention at Baltimore, accepting the nomination of that Convention as a candidate for the Presidency, is as follows:

WASHINGTON CITY, July 6, 1860.

DEAR SIR:—I have your letter of the 23d ult., by which I am officially informed of my nomination for the office of President of the United States by the Democratic National Convention lately assembled at Baltimore.

The circumstances of this nomination will justify me in referring to its personal aspect. I have not sought nor desired to be placed before the country for the office of President. When my name was presented to the Convention at Charleston it was withdrawn by a friend in obedience to my expressed wishes. My views had not changed when the Convention re-assembled at Baltimore, and when I heard of the differences which occurred there my indisposition to be connected prominently with the canvass was confirmed and expressed to many friends.

Without discussing the occurrences which preceded the nominations, and which are or soon will be well understood by the country, I have only to say that I approved, as just and necessary to the preservation of the National organization and the sacred right of representation, the action of the Convention over which you continued to preside; and thus approving it, and having resolved to sustain it, I feel that it does not become me to select the position I shall occupy, nor to shrink from the responsibilities of the post to which I have been assigned. Accordingly, I accept the nomination from a sense of public duty, and, as I think, uninfluenced in any degree by the allurements of ambition.

I avail myself of this occasion to say that the confidence in my personal and public character, implied by the action of the Convention, will always be gratefully remembered; and it is but just also to my own feelings to express my gratification at the association of my name with that of my friend, Gen. Lane, a patriot and a soldier, whose great services in the field and in council, entitle him to the gratitude and confidence of his countrymen.

The resolutions adopted by the Convention have my cordial approval. They are just to all parts of the Union, to all our citizens, native and naturalized, and they form a noble policy for any Administration.

The questions touching the rights of persons and property, which have of late been much discussed, find in these resolutions a Constitutional solution. Our Union is a Confederacy of equal Sovereign States, for the purposes enumerated in the Federal Constitution. Whatever the common Government holds in trust for all the States, must be enjoyed equally by each. It controls the Territories in trust for all the States. Nothing less than sovereignty can destroy or impair the rights of persons or property. The Territorial Governments are subordinate and temporary, and not sovereign; hence they cannot destroy or impair the rights of persons and property. While they continue to be Territories they are under the control of Congress, but the Constitution nowhere confers on any branch of the Federal Government the power to discriminate against the rights of the States or the property of their citizens in the Territories. It follows that the citizens of all the States may enter the Territories of the Union with their property, of whatever kind, and enjoy it during the territorial condition, without let or hindrance, either by Congress or by the subordinate Territorial Governments.

These principles flow directly from the absence of sovereignty in the Territorial Governments, and from the equality of the States. Indeed, they are essential to that equality which is, and ever has been, the vital principle of our Constitutional Union. They have been settled legislatively—settled judicially—and are sustained by right reason. They rest on the rock of the Constitution—they will preserve the Union.

It is idle to attempt to smother these great issues, or to misrepresent them by use of partisan phrases, which are misleading and delusive. The people will look beneath such expressions as "Intervention," "Congressional Slave Code," and the like, and will penetrate to the real questions involved. The friends of constitutional equality do not and never did demand a "Congressional Slave Code," nor any other code in regard to property in the Territories. They hold the doctrine of non-intervention by Congress or by a Territorial Legislature either to establish or prohibit Slavery; but they assert (fortified by the highest judicial tribunal in the Union) the plain duty of the Federal Government, in all its departments, to secure, when necessary, to the citizens of all the States the enjoyment of their property in the common Territories, as everywhere else within its jurisdiction. The only logical answer to this would seem to be to claim sovereign power for the Territories or to deny that the Constitution recognizes property in the services of negro slaves, or to deny that such property can exist. Inexorable logic which works its steady way through clouds and passion, compels the country to meet the issue. There is no evasive middle ground. Already the signs multiply of a fanatical and growing party, which denies that under the Constitution, or by any other law, slave property can exist; and ultimately the struggle must come between this party and the National Democracy sustained by all the other conservative elements in the Union.

I think it will be impossible for a candid mind to discover hostility to the Union or a taint of sectionalism in the resolutions adopted by the Convention. The Constitution and the Union repose on the equality of the States, which lies like a broad foundation underneath our whole political structure. As I construe them, the resolutions simply assert this equality. They demand nothing for any State or section that is not cheerfully conceded to all the rest. It is well to remember that the chief disorders which have afflicted our country have grown out of the violation of State equality, and that as long as this great principle has been respected we have been blessed with harmony and peace. Nor will it be easy to persuade the country that resolutions are sectional which command the support of a majority of the States and are approved by the bone and body of the old Democracy, and by a vast mass of conservative opinion everywhere, without regard to party.

It has been necessary more than once in our history to pause, and solemnly assert the true character of this Government. A memorable instance occurred in the struggle which ended in the civil revolution of 1800. The Republicans of that day, like the Democrats of this, were stigmatized as disunionists, but they nobly conducted the contest under the Constitution, and saved our political system. By a like constitutional struggle, it is intended now to assert and establish the equality of the States as the only basis of union and peace. When this object, so national, so constitutional, so just, shall be accomplished, the last cloud will disappear from the American sky, and with common hands and hearts the States and the people will unite to develop the resources of the whole country, to bind it together with the bonds of intercourse and brotherhood, and to impel it onward in its great career.

The Constitution and the Equality of the States! These are symbols of everlasting union. Let these be the rallying cries of the people.

I trust that this canvass will be conducted without rancor, and that temperate arguments will take the place of hot words and passionate accusations. Above all, I venture humbly to hope that Divine Providence, to whom we owe our origin, our growth and all our prosperity, will continue to protect our beloved country against all danger, foreign and domestic.

I am, with great respect, your friend,
JOHN C. BRECKINRIDGE.

GRAND CHANCE TO SECURE A HOME! upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a man, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase.

A Voice from the Grave—Letter of Patrick Henry to John Alsop.

From the Auburn Union, July 2.

We are indebted to Wm. Howland, Esq., of Sherwood's Corners, in this county, for the privilege of perusing and transcribing for publication this veritable original letter of Patrick Henry. It was addressed to John Alsop, a venerable and worthy member of the Society of Friends, then residing at Hudson, N. Y., whose son Thomas subsequently married Mary, sister of Humphrey and Slocum Howland, of this county, in whose family it has ever since been carefully preserved.

As we are endeavoring to bring this government to the avowed policy of its founders among whom Patrick Henry was the most conspicuous, we are grateful for the opportunity of presenting this pertinent item of testimony to our readers:

"HANOVER, Va., Jan. 13, 1773

"DEAR SIR:—I take this opportunity to acknowledge the receipt of Anthony Benezet's book against the slave trade. I thank you for it. It is not a little surprising that Christianity, whose chief excellence consists in softening the human heart, in cherishing and improving the finer feelings, should encourage a practice so totally repugnant to the first impressions of right and wrong. What adds to the wonder is, that this abominable practice has been introduced in the most enlightened ages. Times that seem to have pretentions to boast of high improvements, arts, science and refined morality, have brot into general use, and guarded by many laws, a species of violence and tyranny which our more rude and barbarous, but more honest ancestors detested.

Is it not amazing, that at a time when the rights of humanity are defined and understood with precision, in a country, above all others, fond of liberty—that in such an age and such a country, we find men professing a religion the most humane, mild, meek, gentle and generous, adopting a principle as repugnant to humanity as it is inconsistent with the Bible, and destructive of Liberty! Every thinking, honest man, rejects it in speculation. How few, in practice, from conscientious motives!

The world, in general, has denied your people a share of its honors; but the wise will ascribe to you a just tribute of virtuous praise for the practice of a train of virtues, among which your disagreement to Slavery will be principally ranked. I cannot but wish well to a people whose system imitates the example of Him whose life was perfect; and believe me I shall honor the Quakers for their noble efforts to abolish Slavery. It is equally calculated to promote moral and political good.

Would any one believe that I am master of slaves by my own purchase? I am drawn along by the general inconvenience of living without them. I will not—I cannot justify it, however culpable my conduct. I will so far pay my devoir to virtue, as to own the excellence and rectitude of her precepts, and to lament my want of conformity to them. I believe a time will come when an opportunity will be afforded to abolish this lamentable evil. Everything we can do, is to improve it, if it happens in our day; if not, let us transmit to our descendants, together with our slaves, a pity for their unhappy lot, and an abhorrence of Slavery. If we cannot reduce this wished-for reformation to practice, let us treat the unhappy victims with lenity. It is the farthest advancement we can make toward justice. It is a debt we owe to the purity of our religion to show that it is at variance with that law which warrants slavery.

Here is an instance that silent meetings (the scoff of reverend Doctors) have done that which learned and elaborate preaching cannot effect; so much preferable are the general dictates of conscience and a steady attention to its feelings, above the teachings of those men who pretend to have found a better guide. I exhort you to persevere in so worthy a resolution. Some of your people disagree, or at least are lukewarm in the abolity of Slavery. Many treat the resolution of your meeting with ridicule; and among those who throw ridicule and contempt on it, are clergymen whose surest guard against both ridicule and contempt, is a certain act of Assembly.

I know not where to stop. I could say many things on this subject, a serious review of which gives a gloomy perspective to future times. Excuse this scrawl, and believe me, with esteem, your humble servant,

PATRICK HENRY, Jr.

John Alsop, Hudson, N. Y.

NEW ARRANGEMENTS.

HUNN & CROSBY,

No. 191 East Water St., Milwaukee.

Two doors north of Uncle Ben's Hat Store.

TAKE THIS OCCASION TO ANNOUNCE to their friends and the public at large, that they have removed from their old quarters to their present location, for the purpose of obtaining more ample accommodations for their business, and to keep pace with the requirements of their trade. We have just made heavy additions to our stock, which makes ours the best assorted Family Grocery in town, and we intend to be in future, as we always have been in the past, the first in the market with every novelty of the season. We are receiving goods every week from the East, thereby always keeping our stock fresh and full. Everything pertaining to the trade can be found at our establishment, and we are prepared to sell at wholesale as well as retail, on as favorable terms as any concern in town. Teas, Sugars Coffees, Dried Fruits, Hermetical y Sealed Fruits, and every other article usually found in first-class family groceries, are sold by us, and always warranted as represented. We will sell you a better Tea for fifty cents, than you can buy anywhere else in town for seventy five, and as good a one for forty, as our windy cotemporaries, who make such a blow on TEAS *will* or *can* sell for fifty. We mean what we say, and stand ready to verify it every hour in the day and every day in the week. We make it a point never to be undersold, and want it distinctly understood that we do our business upon that principle.

Country merchants can always sort up their stock with us, to a good advantage. We will sell you goods by the package as low as any of the wholesale dealers down town.

Butter and Eggs are received by us daily, from our agents in the country.

☞ TERMS CASH.

We cordially invite our friends and customers and the public generally, to call and see us in our new institution, and make an examination of our goods and prices. Particular attention paid to orders.

St. Nicholas Hotel,
BROADWAY.
NEW YORK.

WHEN COMPLETED, SIX YEARS ago, the St. Nicholas was universally pronounced the most magnificent, convenient and thoroughly organized establishment of the kind on this continent. What it was then, it remains today—without a rival in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad derived from its magnitude, its superior appointments, and its homelike comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

THE GREATEST

MEDICAL DISCOVERY
OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers, and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES
OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF
CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a PURELY SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, thus acting *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites with *the most happy effect*."—*C. Fisher, M. D., Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Ruef, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. G. W. Davis, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."—*Dr. Churchill.*

"Winchester's Hypophosphites are unexceptional in their preparation."—*Am. Druggists' Circular.*

"Mr. Winchester is worthy of all confidence and devotes himself enthusiastically to these preparations in all their variety of combination. Prepared strictly by Dr. Churchill's method."—*D. Meredith Reese, M. D., New York.*

"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps in a day, as any other physician in the country."—*B. T. CHASE, M. D.*

"The Hypophosphites are most appropriate Remedies in large class of affections resulting from loss of nervous force."—*Boston Medical and Surgical Journal.*

Dr. Churchill's Work on Consumption

IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure," is the formula prescribed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

Scrofula, or King's Evil,

IS A CONSTITUTIONAL disease, a corruption of the blood, by which this blood becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease upon any part of it. No organ is free from its attacks, nor is there any one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food; impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which engenders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla

The most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

COMMERCIAL.

MONETARY.

THURSDAY P. M., July 12th, 1860.

We have nothing new to note in regard to money matters here. The banks report liberal offerings for discount, and a good demand for Exchange, some of them having as much as they can conveniently do to meet the demand for Currency and Exchange. The latter is firm at 1¼ premium, the banks buying at 1 premium. This is a much better state of things than prevailed a year ago, and is a sure indication of the steady improvement going on in our commerce.

CHICAGO MONEY MARKET.—The *Press & Tribune* of this morning, says:

The money market is dull and quiet. Exchange—selling rates—1¼, being 1 ℔ cent premium for currency. Gold 1¼ with few sales. Currency is abundant, and the money market generally is well supplied. Business paper—that is, produce drafts with bills of lading attached, would be taken in almost any amount. The rate of discount is uniformly 10 ℔ cent.

Ashes, casks	19	Whiskey, bbls	1
Beer, bbls	8	Highwines, bbls	7

Wheat at New York to-day was firmer, while the reverse of this is reported the case with flour. The quotations are unchanged. The more favorable tone of the New York report, together with very light receipts, caused an advance in our market for wheat of 1c over yesterday's inside prices. No. 1 spring was firm at $1,10 in store, and $1,08 was offered for No. 2. Club and Extra sold at $1,12½@1,13¼ delivered, with a good demand for all that was in the market.

Flour was unchanged. Some 450 bbls sold at $5,05 for city superfine; $5,20@5,30 for choice country Ex. tra, and $5,75 for prime city do. Corn was a little better, shelled bringing 46c. Oats were also firmer, on account of light supply, small lots selling at 29@30c for home consumption.

There were no engagements of vessels, but rates were nominally firmer.

CROP PROSPECTS IN EUROPE.—We publish in another column this morning, an article from the Mark Lane *Express* of June 25th, which contains some interesting information in reference to the crop prospects, condition of markets, and supply of breadstuffs in Europe. It will be seen that the *Express* concludes that a large deficiency in the coming crop is now inevitable.

THE COMMERCE OF NEW YORK.—The official returns of the New York Custom House show that the imports of the fiscal year, ending June 30, 1860, were $233,-725,016, and the exports $135,636,490. Of the export *forty-two per cent.* was in specie and bullion. The N. Y. *Courier* gives the following figures to illustrate the rapid growth of the commerce of New York:

Year.	State of New York— Foreign Imports.	Exports.
1821	$ 23,629,000	$ 13,160,000
1826	35,115,000	21,947,000
1831	57,077,000	25,535,000
1836	118,253,000	28,920,000
1841	75,715,000	33,139,000
1846	74,251,000	36,935,000
1851	141,516,000	86,007,000
1856	210,162,000	119,111,000
1857	178,475,000	124,509,000

NEW YORK CANAL TOLLS.—The tolls received on all the New York State canals for the month of June, 1859 and 1860, compare as follows:

June, 1859	$210,227 00
June, 1860	376,263 00
Increase for 1860	$165,986 00
Whole amount of tolls received from the opening of navigation to and including the month of June, 1860	785,832 33
Do in 1859	483,744 00
Increase in 1860	$302,088 33

This is an averaging exhibit. The increase in tolls is mainly due to the increased movement of Western produce toward tide-water. We look for a still larger gain during the fall months.

OCEAN FREIGHTS.—The freight engagements at New York on Monday included the following:

To Liverpool—500 bxs cheese (per steamer) at 50s; 2,000 bbls flour at 2s6d; 17,000 bus wheat at 8½@9¼d, in bags, the lower rate to fill up; 75 hhds tallow at 22s 6d; 150 bales wool at ½d. To Glasgow—15,000 bus wheat and 1,000 bbls flour on p. t. To Havre—wheat at 17@18c ℔ bus; flour at 65@70c ℔ bbl, and cotton at ¾c. A Bremen bark to London, with 6,000 bbls flour at 3s. To Melbourne—bark *Sarah H. Snow*, 5,-000 bbls flour on p. t.

THE HARVEST IN MINNESOTA.—The Winona *Republican* of yesterday says:

There have already been sold in this place over 300 reaping machines, and yet there is a demand for some kinds which the agents will not be able to supply. Also of threshing machines—there were not a sufficient number manufactured and shipped here to supply our farmer friends. It is estimated in the country that there will be an average of 30 acres of grain to be harvested to every able working man. Hired help is scarce, and we hear of $2 per day, being offered for hands to work through harvest.

CHICAGO MARKET, JULY 11TH.—Receipts of the articles named, at Chicago, yesterday, were as follows:

Flour, bbls	1,070
Wheat, bus	5,148
Corn, bus	104,345
Oats, bus	5,558
Rye, bus	376

The *Press & Tribune* says in reference to the market:

The Corn market to-day was unfavorably affected by the *Europa's* news, as well as by a very material advance in freights, and we have to note a still further decline of ⅜c ℔ bus, at which there were heavy transactions, though not quite so large as yesterday. About 150,000 bus changed hands, mostly for shipment, at 44½@45c for No. 2 canal afloat; 44@44½ for No. 1 in store; 42@43½c for No. 2; and 39@40c for rejected—the market closing with a good inquiry at the inside quotations. Wheat was in good request to fill out cargoes, but the small quantity offered rendered the market quite firm, with sales of No. 2 Spring at $1,00@1,-07 in store, and rejected Spring at 91c in store. In new Winter wheat there were some transactions at $1,15 for No. 1 red on track; $1,09 for No. 2 red in store; and 92c for new r jected in store. The sample box on 'Change was filled with No. 1 red to-day. The quality is excellent, and it weighs 63 lbs to the measured bus. Flour is neglected and entirely nominal. Oats were in good request and active at previous prices—26c in s ore, and 27¼@28c on track. New Rye was sold by sample at 53¼c ℔ 56 lbs, and 54c ℔ 60 lbs on track. Highwines 18@19¼c. Alcohol 36¼@37. Mess Pork in demand at $18,50—holders asking $19. Tallow 9¾ for city. Hides rather dull. Wool steady. The light receipts of fish during the past few days have rendered the market very firm, and we have to note an advance of 12½ ℔ hf-bbl—No. 1 Whitefish closing at $3,50.—Butter is active and a shade easier.

There was an active demand for freight room to-day and rates advanced 1@1½c ℔ bus. A propeller was engaged at 4c for oats Buffalo, and five sail vessels at 6@6½c for corn to Buffalo, and 8c to Oswego.

ALBANY GRAIN MARKET, JULY 10.—There is a better milling inquiry for Wheat, with sales of 3,200 bus white Indiana at $1,45, and 1,500 bus do Canadian at $1,46. Corn is dull and drooping. Sales 3,500 bus Western mixed in car lots at 62¼c. Rye quiet. Oats steady, with sales of about 5,000 bus State at 39c.

BALTIMORE MARKET.—At Baltimore on Tuesday, flour was dull, with a declining tendency.

Coffee firm, with sales of 500 bags at 13¼ to 14¼.

Provisions firm; sales 120 hhds bacon at 9¼@11¼c for shoulders and sides. Sales 60,000 lbs bulk sides at 10¼c; 300 kegs lard at 11¼c; 18 bbls rump pork at $14. Mess pork held at $19,50.

Nothing done in Groceries.

Whiskey 20¼c for Ohio, and dull.

COFFEE AT NEW YORK.—The *Commercial Advertiser* says:

Holders of Rio maintain great firmness, in view of the moderate stocks in the country, and the small expected receipts for a month to come, but buyers hold off, and purchase only for the supply of their immediate necessities. Other kinds are inactive, but maintain previous rates.

Sales 708 bags Rio at 13¼@14¼c; 700 Costa Rica 12¼c; 500 mats Java at 15¼@15¼c; 8 hhds Jamaica 13¼c, 4 mos; 515 bags St. Domingo 12¼@13c, cash; 1,050 Government Java, and 152 Savilla on terms we did not learn.

RAILWAY MATTERS.

EXCURSION TICKETS TO NEW YORK.

The Detroit and Milwaukee Railway Company, we are informed, will issue excursion tickets to New York during the stay of the *Great Eastern* at $46,00, good to return at any time. This is $2 less than the fare by any other route, to say nothing of the saving of time, and many other advantageous features of this route. The reasons why the New York roads will not issue half-fare tickets is thus briefly stated by a cotemporary: "New York are the great centre of attraction, and thousands who are compelled to visit the city on business would take advantage of the low rate, and thus deprive the companies of half-fare on each trip, while the additional number who would be induced to go on account of the reduction, would not make up more than a fraction of what the roads would lose by the advantage which would be taken of it by their regular customers. A half-fare ticket must cover at least two weeks of time, in order to be satisfactory, and hundreds of business men would avail themselves of the opportunity to make the trip and save one-half of their expenses."

There is some plausibility in this argument we must admit, but we are rather inclined to think the conclusion is wrong. Very likely "hundreds of business men would avail themselves of the opportunity to save one half of their expenses," but what of that? For every such would there not be *three hundred others* who will not go at all at the regular rates? The business men whose vocations compel them to go to New York occasionally, are a mere fraction in comparison with those who would visit New York for pleasure on such an occasion as this, if they could do so at a moderate expense, but who must now deprive themselves of that gratification. The New York Central, we think, have made a great mistake. When it was supposed that the *Great Eastern* would visit Portland, the sagacious managers of the Grand Trunk immediately advertised to issue excursion tickets at half price, and the thousands of Western people who would now flock to New York, were the roads of that State to pursue the same liberal policy, will doubtless stay at home, in hopes that as soon as the New Yorkers get tired looking at the big ship, she will make a trip to the port of her original destination.

STEALING RAILROAD IRON.

For some months past a wholesale system of robbery has been carried on along the line of the Great Western Railway, by which tons of wrought spikes, left lying on the track, have been stolen and never heard of again. A Canada paper says: "It appears, from what we can learn, that tin pedlars have been known to ship off quantities of this stuff to Buffalo and elsewhere, obtained in the first place from parties around, in exchange for their ware, and, as the trade in old iron is a profitable one, they had no hesitation in receiving those spikes in lieu of their tin ware, without even inquiring from whence they came, although they could not fail to know that they were not honestly come by. Arrest of parties have been made, who are now in custody at London, C. W."
